Inspection Report

Minerals Regulatory Program

November 1, 2005

Supervisor DRH

Mine Name: Rhyolite 1
Operator Name: Color Country Rock
115 South Main
Veyo, Utah 84782

Permit number: S/021/032
Inspection Date: October 27, 2005
Time: 1:15 PM

Inspector(s): Doug Jensen
Other Participants: None
Mine Status: Active

Weather: Cool, windy

Elements of Inspection	Evaluated	Comment	Enforcement
1. Permits, Revisions, Transfer, Bonds	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Public Safety (shafts, adits, trash, signs, highwalls)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Protection of Drainages / Erosion Control	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Deleterious Material	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Roads (maintenance, surfacing, dust control, safety)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Concurrent Reclamation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Backfilling/Grading (trenches, pits, roads, highwalls, shafts, drill holes)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Water Impoundments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Soils	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

This site recently become active, I was checking the extent of this activity.

Inspection Summary:

The permittee has opened up a small quarry on the hillside. There were three product piles (screened rock) placed on the lower portion of the site. Soil from the site had been pushed into berms around the site. There was a loader and a fuel tank on a flatbed trailer located on the site.

4. Deleterious Material

There is one environmental concern noted at the site, there was no containment around the fuel tank which was located near a drainage. If this tank is to be left onsite, it will need to have a containment placed around it.

I GPS'd an enlarged area around the disturbance which the operator had flagged. The disturbance itself had been GPS'd previously by Ed Ginouves (BLM) so I seen no need to map this area.

Conclusions and Recommendations:

The site was clean with no other erosion or environmental concerns. I will continue to monitor the site when I am in the area.
